

Sixth Sustainable Nanotechnology  
Organization Conference 2017  
Sunday, Nov. 5 – Tuesday, Nov. 7  
Los Angeles, California

What: 6th Sustainable Nanotechnology Organization Conference

Theme: Sustainable Nanotechnology Systems

Where: Los Angeles, California

When: Sunday, November 5 to Tuesday, November 7, 2017

Featuring:

Plenaries on sustainable nanotechnology: Mike Roco, Joe Wang, Miguel Garcia-Garibay

Technical Sessions—

Tribute to Pedro Alvarez

Sustainable Nanotechnology in:

Food/agricultural systems; Water systems; Exposure; Nanotoxicology; Life cycle systems;  
Sensors/Measurement; Green synthesis; Education/Social Aspects; Nanomedicine

Call for Papers is open until September 6, 2017

Information: [www.Susnano.org/conferenceOverview2017.html](http://www.Susnano.org/conferenceOverview2017.html)

# Sustainable Nanotechnology Organization

Research | Education | Responsibility

The Sustainable Nanotechnology Organization (SNO) is a non-profit, worldwide professional society comprised of individuals and institutions that are engaged in:

- Research and development of sustainable nanotechnology
- Implications of nanotechnology for Environment, Health, and Safety
- Advances in nanoscience, methods, protocols and metrology
- Education and understanding of sustainable nanotechnology
- Applications of nanotechnology for sustainability

SNO's purpose is to provide a professional society forum to advance knowledge in all aspects of sustainable nanotechnology, including both applications and implications, societal and economic aspects.
