

Vicki H. Grassian, UC San Diego

Vicki H. Grassian is currently a Distinguished Professor in the Departments of Chemistry & Biochemistry, Nanoengineering and Scripps Institution of Oceanography and holds the Distinguished Chair of Physical Chemistry within the Department of Chemistry & Biochemistry at UC San Diego. She also serves as the Associate Dean of Physical Sciences and is the Co-Director of the NSF-Funded Center for Aerosol Impacts on Chemistry of the Environment. Research in the Grassian group spans physical, analytical, surface, materials and environmental chemistry. Current research in the Grassian group focuses on the surface chemistry of environmental interfaces including indoor surfaces, heterogeneous and multiphase atmospheric chemistry, and sustainable nanotechnology.
